

UNDERWRITING CLASSES

Cincinnati Life offers six underwriting rate classes to help provide your clients the best rate available.

These classes allow us to identify insurance risks that demonstrate exceptional, good, average and below-average mortality experience. Placing each risk in the appropriate classification is essential in maintaining class integrity and competitive pricing. In order to maintain our strong premium structure, we must strictly adhere to our guidelines.

Nonsmoker classes

Preferred Plus

Preferred Plus is our best risk classification reserved for those who have not used tobacco or nicotine products in any form in the last five years and meet our Preferred Plus criteria.

Preferred

This class is for applicants who enjoy exceptionally good health, have not used tobacco or nicotine products in any form in the last three years and meet our Preferred criteria.

Standard Plus

This is available to applicants in good health who have not smoked cigarettes in the past year and meet all of the Standard Plus criteria. Some non-cigarette tobacco users may qualify.

Standard Nonsmoker

Includes non-cigarette tobacco users and non-tobacco users who do not meet Standard Plus criteria.

Smoker classes

Preferred Smoker

Available to applicants applying for \$100,000 face amount or higher who have smoked cigarettes within the past year but otherwise meet the Preferred criteria. Past smokers still dependent on a nicotine substitute may qualify by meeting the same Preferred criteria.

Standard Smoker

Includes most applicants who have smoked cigarettes within the past year, past cigarette users still dependent on a nicotine substitute.

Note: At all ages and face amounts, the minimum requirements for Standard Plus, Preferred and Preferred Plus classes are an amplified nonmedical exam, blood profile and urinalysis.

Applications that give no admission of tobacco or nicotine product use, but urine is positive for nicotine, are subject to the Standard Smoker rate class. Secondhand smoke is rarely concentrated enough to be detected in a urinalysis. However, in the event urine is positive for nicotine in a non-tobacco user, the quantity is sufficient to affect health and the related mortality risk.

UNDERWRITING CLASS CRITERIA

Standard Nonsmoker, Preferred Smoker and Standard Smoker

As with Preferred Plus, Preferred and Standard Plus, the above classifications are based on:

- Tobacco (users of e-cigarettes are considered the same as a cigarette user)
 - Standard Nonsmoker: Includes some tobacco (except cigarette) users who do not fit Standard Plus criteria.
 - Preferred Smoker (\$100,000 and above): Includes some tobacco users who do not fit Standard Nonsmoker criteria. **Smoking tobacco users applying for Preferred Smoker must:**
 - Meet Preferred medical requirements
 - Fit Preferred criteria, including Preferred Build Chart
 - Standard Smoker: Includes most cigarette users, past cigarette users still dependent on a nicotine substitute and other tobacco users who do not fit Preferred Smoker criteria.
- Other medical/nonmedical factors, such as the preferred criteria listed on Page 10

Build chart

Maximum weights of both male and female for Standard Nonsmoker and Standard Smoker.

Weights that exceed the above for corresponding heights **may** be subject to an additional premium charge. Contact underwriting for more information.

Tobacco classification guide

If you still aren't sure what tobacco class your client fits in, review the following to see how Cincinnati Life classifies the various products.

Non-smoking tobacco

- Smokeless tobacco, chewing tobacco, dip, snuff
- Cigar
- Pipe
- Urine specimen may be positive for nicotine
- Tobacco use must be reported on initial application

Smoking tobacco

- Cigarettes
- E-cigarettes, vape
- Hookah
- Nicotine substitute, such as gum, patch and others

Marijuana

- Smoking
- Edibles
- All other derivatives

Monthly Marijuana Use			
Age	Up to 2 times	3-7 times	8 times or more
<18	Decline	Decline	Decline
18-29	Standard Smoker	Standard Smoker	Standard Smoker Table 2 to Decline
≥ 30	Standard Nonsmoker*	Standard Smoker	Standard Smoker Table 2 to Decline

* Can be considered for up to Preferred Plus rates if use is no more than one time monthly and urine is negative.

Substandard cases

You may write substandard cases using the Standard Nonsmoker and Standard Smoker classifications.

Avocations may warrant a flat extra premium on an otherwise Standard Plus risk.

Celebratory cigar

Cincinnati Life offers Preferred Plus and Preferred consideration for applicants who meet all the outlined class criteria other than having smoked celebratory cigars. This allows for no more than six cigars per year and a urine specimen must be negative for nicotine.
