General guidelines

- Requirements are based on the total face amount of current applications and all amounts in-force with North American in the past two years. Requirements are also ordered based on the actual age of the proposed insured on the date of the application.
- North American reserves the right to require a paramedical and other testing on any person proposed for coverage.
- Paper applications must be completed in ink. Any changes and corrections must be initialed and dated by the proposed insured/owner.
- All paperwork may be faxed to the appropriate team fax number, uploaded to northamericancompany.com directly via the Life Document Upload tool, or mailed. Premium checks and original 1035 forms are to be sent through the mail. Please contact your Case Manager for questions regarding state form requirements.
- Use the agent's transmittal report, or a cover letter to provide supporting information. This will help expedite application processing, policy issue and commission payment.
- The maximum participation limit for Waiver of Premium and Accidental Death Benefit (ADB) with ALL companies is:
 - \$250,000 on ADB (ADB amounts are not included in determining underwriting requirements).
 - \$5,000,000 on Waiver of Monthly Deductions and Waiver of Term Premium for Disability Products.
- A statement of good health will typically be required if the face amount of coverage is increased.
- A statement of good health will also be required if the latter of the health questions on the application or paramedical is over 60 days, when the policy is placed in-force. The time period runs from the date the requirements are completed until the date the policy is put in-force.
- Applications are good for 180 days but must be received in the administrative office within 90 days of being signed.

Substandard ratings

Table ratings are available for both medical and non-medical reasons and vary by product and issue age. Please refer to the product marketing guide for issue ages, underwriting classifications and table ratings.

Non-medical flat extras (all products)

- May be applied to the standard non-tobacco and standard tobacco rates.

Medical flat extras (all products)

- May be applied to the standard non-tobacco and standard tobacco rates.

- If the applicant elects to have coverage under the Temporary Life Insurance Agreement, the TIA form MUST be completed at the time of the application, bearing the same date as the application signed date, and submitted with the application (no exceptions).
- We must receive an appropriate payment with the application when submitting TIA.

SimpleSubmit® information

How do I schedule the paramedical exam?

There are two ways to schedule the paramedical exam.

1. Use the online scheduling tool within SimpleSubmit. Please note: When using SimpleSubmit, APPS-Portamedic and Exam One are currently the only paramedical vendors available through the online tool.
2. Use your own examiner. You can elect to bypass the online scheduling tool and schedule the paramedical exam with a vendor of your choice from the approved vendors (see page 6). Please note: **YOU MUST ADVISE THE EXAMINER TO COMPLETE THE PARAMED EXAM WHICH INCLUDES THE HEALTH AND LIFESTYLE QUESTIONS**

For additional information on the SimpleSubmit e-app - refer to the SimpleSubmit Agent Guide.

How does the SimpleSubmit process differ from traditional underwriting?

SimpleSubmit allows you to gather basic client information and signatures electronically. For ages 17 and under, the medical and lifestyle questions are asked during the SimpleSubmit process. For ages 18 and up, your client will answer the medical and lifestyle questions during the paramedical exam, physical measurements, and lab sample collection.

Can I use SimpleSubmit for all applications?

You will not be able to use SimpleSubmit for all applications. The instances when you must still use a paper application are as follows:

- Policy change conversions, reinstatements, face amount increases, adding riders, benefits and class/rate changes

WriteAway® underwriting

1. Please refer to the WriteAway field guide for full guidelines regarding acceptable product parameters, medical history, and process details.
2. If your applicant qualifies for the WriteAway process, please do not set up paramedical exams. If your client requires an abbreviated exam after underwriting review, the administrative office will order the exam.
3. WriteAway applications may be monitored post-issue to confirm the disclosures. A policy may be rescinded if information reveals a material misrepresentation in the application submitted.
4. For any other questions, please contact the administrative office.

Electronic signatures

Acceptable electronic signatures for New Business and Policy Change:

- North American's SimpleSubmit e-app
- DocuSign
- RightSignature

Key

24 months	An APS or electronic health record will be ordered by the administrative office if the applicant has been seen within 24 months.
For Cause	The underwriter will make every effort to use the application and prescription report to assess the risk. If there is no prescription report available, other sources of information may be utilized.
Required in all cases	It is our expectation that these applicants have regular medical care, including health screenings. Therefore if not seen by a physician within 12 months, we will not be able to proceed with the case.
For ages 1-70	If there is no MD visit and there is an APS required, within the time frame noted above, cases may be considered on an individual basis. Other sources of information may be utilized.

Requirements are based on the actual age of the proposed insured on the date of the application. When determining the underwriting requirements, use the total amount of life insurance applied for and in-force with North American in the past two years.
